Summary

Product designer with about 2.5 years of experience across AI, fintech and streaming products. Drove the 0→1 design of an AI sales copilot at Ringover and shipped core features for FastRouter, an AI gateway at Media.net. Currently building and launching independent products, Doco and Nutmeg Street.

Selected projects

Doco

An expressive Android companion for focus and music, with Everyday and Focus modes. Designed the product and launch website. Product Hunt launch, October 2026; Day Rank #14.

Nutmeg Street

Street-football browser game. Designed and art-directed the visual style, level structure and game feel; built with Codex. Players aim, curve and charge kicks to nutmeg pedestrians and score.

Credit Card Hub

B2C fintech for Bajaj Pay. Team project for card onboarding, dues, payments and smart statements. Contributed to problem definition, ideation, user testing, wireframes and final design direction.

FastRouter

A B2B AI gateway connecting teams to 200+ LLMs. Delivered branding, UX research and product design at Media.net, covering Alerts, Model Catalogue, Dashboard, Onboarding and the landing page.

Bisoi UX Research

College group project, Apr–May 2023. Explored tourism in a remote Uttarakhand village: desk research, on-site interviews, analysis, ideation and Figma prototypes for local experiences and digital discovery.

Education

DIT University, Dehradun
B.Des, User Experience Design
Graduated 2024

Skills

Figma / Figma AI, Framer, Spline, Lovable, Codex, Claude Code, Antigravity, Notion

UX research, wireframing, prototyping, interaction and visual design, branding, design systems

Also

Gamer and cinematographer. Made Three Wheeler Home, a short documentary about a Mumbai auto-rickshaw driver who lives in his vehicle.

Experience

Personal Goal Pursuit Break

Doco, Nutmeg Street • Jun 2026–Present • Indore

Designing and launching self-initiated products: concept, interaction and visual design, prototyping, branding and launch websites.

• Designed Doco, an Android companion for focus and music, with Everyday and Focus modes, and built its launch website, getdoco.app. Launched on Product Hunt, reaching Day Rank #14.

• Designed and art-directed Nutmeg Street, a street-football browser game. Used Codex for implementation while directing the visual style, level structure and game feel.

Ringover

Product Designer • Apr 2026–Jun 2026 • Remote

Led the 0→1 design of AIRO Coach, an AI conversational copilot and sales coach that guides customer-service agents in real time. Took the product from concept to developer handoff, working within the design system.

• Collaborated remotely across European time zones.

Media.net

Product Designer • Jun 2025–Apr 2026 • Mumbai

Designed core features for FastRouter, a unified API gateway connecting teams to 200+ LLMs: Alerts, Model Catalogue, Dashboard and Onboarding. Redesigned the landing page, alongside branding and UX research.

• Redesigned UltraChat AI with user-experience analysis. Earlier work covered browser extensions for photo editing, games and trip planning, with design support from concept to launch and their product and landing pages.

Creativeland Asia

Product/Brand Designer • May 2024–Jun 2025 • Mumbai

Designed UI/UX for WAVES OTT, the Prasar Bharati digital-streaming project, across 3 platforms: mobile, website and TV apps.

• Designed and developed brand websites for clients including Hirotec, Petromin x Pirelli and Godrej. Also designed Rolling Stone India's Future of Music 2025 website.

Bajaj Finserv

Product Design Intern • Feb 2024–May 2024 • Pune

Designed Credit Card Hub for Bajaj Pay from 0→1 through handoff, within the design system and GOI/UPI requirements. Contributed across problem definition, concepts, selected user testing, wireframe iteration and the final design direction.

• Designed journeys for consent-led onboarding, card tokenisation, bill settlement and manual card addition. After launch, the hub added 1,700+ cards in its first 2 weeks and engaged 130,000+ users within 3 months.

• Built a Figma automation that helped the graphic design team generate and export 40+ app creatives in different sizes at once, supporting busy Independence Day and Rakhi campaigns.
